

**Marktübersicht:  
Application  
Delivery  
Controller**

Hersteller	Produktname	Eckdaten						Grundlegende ADC-Features							Security-Features					Virtualisierungs-Features										
		Appliance (CPU-basiert)	Application Switch (ASICs für L4-Entscheidungen)	Chassis-System	Virtual Appliance/Software	Höhe in HE	Zahl der Ports	Max. Durchsatz L7 (Gbit/s)	L7 Server Load Balancing	HTTP Caching	HTTP Compression	TCP Multiplexing	Policy Editor (für App-spezifische Regeln)	Global SLB	Multi-Homing	Weitere Features	SSL Offload	DoS/DDoS-Abwehr	Deep Packet Inspection	Application Firewall	Server Cloaking	Weitere Features	Virtual-Server-Beschleunigung	Unterstützt dynamische Reallokation (Vmotion etc.)	Integration in VMware Vsphere	Integration in Microsoft Hyper-V	Integration in Citrix XenServer	Integration in weitere Virtualisierungsplattformen	Weitere Features
